

TROY CROWN VIC & POLICE INTERCEPTOR CONSOLES

Fits P.I. Sedan & UV

TROY PRODUCTS has many Crown Victoria console designs to choose from. We have many solutions to accommodate varying needs.

Pictured right is console model CC-PCFX14, a low-profile console with a laptop U-mount straddled to it. The entire installation is at a comfortable height.

The console features a flat deck for mounting computers and a 3" slope for a long radio. The balance of inches between the seats (11") is low for remote heads and accessories such as beverage holders. The low profile also makes it easy to get to other side of vehicle in an emergency.

Other low-profile consoles also are available.

To mount a mix of dash- and trunk-mounted equipment, the MC line is a popular Crown Vic choice. The MC consoles feature a 7" front slope and a level area between the seat in the following lengths: 7", 9", 11", 15", 18" and 23."

**CC-PCFX14 WITH CM-UMNT-SA-LT IN 2011 CROWN VIC
(Voted "Best in Show" at 2011 Cops West Tradeshow)**

**CC-MC16-S with CM-MCMT-SA-RBVU IN CROWN VIC
(Robovu Computer)**

**CC-A-S12 WITH CC-LP-8 AND CM-UMNT-SA-LED IN CV
(CC-LP-8 Add-on Console is Optional)**

TROY Crown Vic & Ford Police Interceptor Consoles

All of the Crown Victoria low-profile consoles can be transferred to or ordered for the new Ford Police Interceptor Sedan and UV!

CC-BPD-15 – 9” sloped area and 6” of level area between the seats. This low-profile console is ideal for a U-mount computer solution (as pictured)

CC-LASD-15 – 7” of sloped area and 8” of level area. The U-mount on the flat deck of this console shows a Ledco docking station on a swing arm.

The console sides are punched with speaker holes so speakers are mounted internally.

The arm pad is reversed so it doesn't hover over the console but away from it. The part number is AC-ARMNT-NS.

CC-L3MC-16 -- 7” of sloped area and 9” of level area between the seats. The console features a flat deck for working with computer mounts.

Bolted to the side of the console is an optional pocket for ticket books. It is sold separately. The part number is AC-POCKET.

All of these consoles are low in the area between the seats. Any of them is a comfortable solution and compatible with computer mount requirements.
